WRITING

- *Short Paper*: "Distance as an instrument for measuring centralized control in government schools", December 2012.

Summary: The paper shows that the quality and outcomes of a government school deteriorate as the distance of a government school from district headquarters increases. This effect is absent in private schools which tend to be decentralized.

- *Research Design as part of course-work*: "Indian Politics: The Criminals beget Criminals Effect", May 2012.

Summary: I create a research design that uses regression discontinuity design to prove that when the incumbent in Indian elections is a criminal, and the opposition party thinks that there is a high probability of the election being close, the opposition party also tends to nominate a criminal.
